

## **INTERNET, WI-FI, MOBILE TELEPHONES**

### **The Essence of Tranquillity:**

It is our desire that guests at Tiger Mountain Pokhara Lodge take “time out” from the stresses and pressures of modern life – in the true spirit of being on holiday. We therefore encourage the concept of ‘no news, no stress’ or Digital Detox.

However, we also appreciate that some guests may find it a greater stress not being in touch with the wider world! We therefore have the best locally available facility for internet connection.

### **Connecting to the Internet:**

There is Wi-Fi available in the Main Lodge. Please ask any of the Stewards for the password.

Sadly, being remote from the city, we are yet to be able to provide Wi-Fi in the rooms.

### **Mobile Telephones:**

We ask our guests to refrain from using mobile telephones in the public areas, indoors and outdoors.

Please put your telephones in silent mode when outside your bedroom.

### **Laptops, Tablets, etc:**

We believe that, like many of life’s activities, using the internet is one of those things best done in private. We therefore ask that guests use their laptops and similar devices in their bedrooms or in Col. Jimmy’s Library.
